We are thrilled with our partnerships and the wonderful support we have received from all involved...of course the Councilman and you all at CD13, the Mayor & his office, City of LA construction (responding to requests and questions), our partners in sanitation and law enforcement who are gearing up for enhanced services...super grateful. Even as unexpected glitches have come up, everyone has worked extra hard to make it happen, and to welcome these wonderful guests into a safe and pleasant bridge home where they can heal and get connected to support that will bridge them into permanent homes.
